

Md. Mehedi Hasan Nabil

MERN Stack Web Developer (JavaScript)

mehedihasannabil49@gmail.com | GitHub | LinkedIn | +8801732490071
Middle Badda, Dhaka

Career Objectives

Passionate and self-motivated junior web developer with a strong focus on front-end and back-end development with Javascript. I love solving problems with code and aim to be part of teams that build exciting digital projects. My goal is to keep learning and staying up-to-date with new technologies.

Projects

Task Management App (Front-end)

[Source code](#)

- User authentication and registration functionalities.
- Users can be able to sign up, log in, and log out and canGithub create tasks with a title, description, and due date and assign team members.
- Users can filter or sort tasks by different criteria (priority, due date, etc.)

Music learning Web App (Full stack)

[Source code](#)

- Allow users to register with their details and log in securely to access the website's features.
- Offer a private dashboard for students, featuring their selected and enrolled classes, payment options, and payment history.
- Admins can provide instructor feedback regarding approved or denied classes, explaining the reasons for their decision.
- Use the Stripe payment system.
